

# Are You Ready for Life's What-If Moments?

Life is unpredictable, but you can be prepared. Build confidence knowing you've created a safety net for yourself and your family.

## What If...

- ✓ You were rushed to the hospital after an accident?
- ✓ You were diagnosed with cancer or another serious illness?
- ✓ Your loved ones had to manage without you?

I can't predict the future, but I can prepare for it — because **my health, my family, and my peace of mind** are worth protecting.

How would you – and the people who depend on you – continue to pay for all the things your paycheck provides?

## Consider This...

### ✓ You are diagnosed with a critical illness:

Will your current coverage handle medical bills plus daily expenses?  Yes  No

Does it cover things like childcare or transportation to treatments?  Yes  No

### ✓ You need hospitalization or emergency care:

Are you adequately protected for unexpected medical costs?  Yes  No

Would your savings cover what insurance doesn't?  Yes  No

### ✓ You pass away tomorrow:

Will your loved ones need financial help with funeral costs?  Yes  No

Would your family's expenses be covered, such as a mortgage or education costs?  Yes  No

## Next Steps for Peace of Mind

Bring your answers to your meeting with a benefits specialist to get personalized guidance on choosing the right coverage for your situation.
